REPORT

ON THE

EXTERNAL TRADE OF BENGAL

WITH

NEPAL, TIBET, SIKKIM AND BHUTAN

FOR THE YEAR 1893-94.

SECTION I.—GENERAL.

No change was made during the year under report in the system under which the external trade of Bengal with Nepal, Tibet, Sikkim and Bhutan, passing along all the important trade routes, is registered at registering posts on the northern frontier of Bengal between the districts of Champaran and Jalpaiguri. The number of such posts was 39, as detailed below, against 38 in 1892-93, a new station having been opened in the Darjeeling district for the registration of the Sikkim trade:—

GENERAL
NOTE I

				No. of registering posts
For the registration of the Nepal trade	32
Ditto ditto Tibet and Sikkim trade	4
Ditto ditto Bhutan trade	3
Total				39

As regards the registration of the trade with Nepal, in addition to the 32 frontier stations, arrangements were made in June 1885 with the Traffic Superintendent of the Northern Bengal State Railway for the registration at Siliguri of commodities brought there from Nepal for despatch by the railway, and also of all consignments received at that station for export to Nepal. The traffic registered at Siliguri has, however, always been insignificant.

2. The total value of the registered trade of Bengal with these States during the past three years is shown below:—

3. There was an improvement of 11·87 per cent. in the amount of traffic registered during the past year in comparison with the amount registered in 1892-93, but the figures were still 1·46 per cent. below those of 1891-92. Compared with the year 1892-93, there was a rise in the import as well as in the export trade in the cases of Nepal, Tibet and Sikkim, but in the case of Bhutan the imports fell by 18·33 per cent., while the exports rose by 13·26 per cent. The causes of the fluctuations are explained in the following sections of this report which deal with each State separately.

GENERAL
NOTICE

4. The figures given in paragraph 2 relating to the Nepal trade include statistics of the trade between that State and other Provinces which passed through, and was registered at, the registration stations in Bengal. The total value of such traffic during the past three years was as follows:—

YEARS	Imports into other provinces from Nepal.		Exports from other provinces to Nepal.	
	Rs.		Rs.	
1891-92	...	3,04,102	...	4,57,838
1892-93	...	1,08,084	...	8,62,793
1893-94	...	83,610	...	3,32,188

In the case of the other three frontier States, no trade is carried on through Bengal with other Provinces of British India.

SECTION II.—TRADE WITH NEPAL.

TRADE WITH
NEPAL.

5. Of the 33 stations at which this trade is registered, Patardewa in the Purnea district remained closed for six months, viz., from the 1st June to the 30th November 1893, and Sukiapukri and Karjulia in the Darjeeling district for three months, from the 16th June to the 15th September 1893. The subjoined table shows the value of the imports from, and exports to, Nepal during the past three years, exclusive of the trade between that State and other British Indian Provinces which passed through Bengal:—

YEARS.	Imports from Nepal.		Exports to Nepal.		Total
	Rs.		Rs.		Rs.
1891-92	...	97,12,501	...	93,80,186	1,90,92,687
1892-93	...	88,94,812	...	81,35,281	1,70,30,093
1893-94	...	1,09,03,664	...	82,51,194	1,91,54,858

The increase in the aggregate value of exports and imports, which in 1891-92 declined 11·40 per cent. and in 1892-93, 10·80 per cent., is a satisfactory indication that trade is recovering. This value was 12·48 per cent. in excess of that of the preceding year, and 33 per cent. in excess of that of 1891-92; the improvement was almost entirely in the import trade, which rose by 22·58 per cent. as compared with 1892-93, and by 12·26 per cent. in comparison with 1891-92; the export trade showed an advance of 1·42 per cent. as compared with 1892-93, but a decline of 12·03 per cent. when compared with 1891-92.

In the import trade the articles which chiefly contributed to the increase were rice (1,21,680 maunds), tobacco (56,662 maunds), paddy (51,703 maunds), and silver (valued at Rs. 4,43,943), against a decrease of 1,46,934 maunds under other rain crops. Under exports there was a falling off in wool manufactured (Rs. 1,29,999,) cotton piece-goods, European (Rs. 1,12,086), silk manufactured (Rs. 23,927), rice (15,338 maunds), and salt (12,381 maunds), against an increase of Rs. 3,24,755 under silver.

6. The usual comparative statement showing the total quantity and value of all the principal staples carried both ways during the past three years is appended. The figures are exclusive of the registered trade with other Provinces which passed through Bengal.

7. *Cattle*.—The past year's figures show that the trade under this head recovered from the decline noticed in the reports for the two previous years. The Purnea district imported the largest number of cattle, 19,413 head having been registered there against 16,574 head in 1892-93, and 12,202 in 1891-92; next comes Muzaffarpur, with 7,440 head against 5,960 and 8,129 head in the two preceding years respectively; Champaran follows with 6,904 head against 6,817 in 1892-93, and 17,659 in 1891-92. The export trade is comparatively insignificant.

8. *Cotton Piece-goods*.—There was a further fall in the exports of European cotton piece-goods of 5.24 per cent. in comparison with 1892-93, and 11.12 per cent. as compared with 1891-92. The decrease occurred in the despatches through Champaran and Bhagalpur, the former district showing the largest decline, while the figures for the other districts show an improvement. The value of unsaleable goods brought back to British territory was Rs. 8,827, against Rs. 29,587 in 1892-93 and Rs. 46,670 in 1891-92. The value of Indian piece-goods exported to Nepal last year showed a falling off of 9.84 per cent. and 41.69 per cent. as compared with the two previous years respectively. Purnea is the principal district through which these Indian goods are sent to Nepal; last year it registered half the total exports. The exports of

European piece-goods registered at the different stations during the past three years are as follows:—

10. *Hides of Cattle.*—The trade under this head, which aggregated 65,013 pieces last year, is rapidly expanding, the increase being 38·99 per cent. as compared with 1892-93, and as much as 112·50 per cent. in comparison with 1891-92. The two principal districts into which hides are imported from Nepal are Purnea and Muzaffarpur. Last year the former received 26·83 per cent. of the total imports and the latter 25·97 per cent. The stations at which the largest imports were registered are the following :—

11. *Skins of sheep, goats, and other small animals.*—During the past year 62,996 skins were imported against 81,088 in 1892-93, and 30,333 in 1891-92. As usual, the largest number (27,958 pieces) was registered at Bairagnia in the Muzaffarpur district.

12. *Iron.*—There was a further fall last year in the export trade under this head, the decline being 4,500 maunds, or 23·15 per cent., as compared with 1892-93, and 11,793 maunds, or 44·11 per cent., as compared with 1891-92. The exports from Champaran decreased by 3,199 maunds, while Patna registered 1,046 maunds in 1892-93, against *nil* in the year under report.

13. *Ghi.*—The quantity of ghi imported from Nepal last year was very slightly below the quantity imported in 1892-93, as will be seen from the following statement, which gives the names of the registering posts at which the largest quantities were registered during the past three years :—

14. *All other kinds of provisions.*—The past year's figures show a revival in the import trade only: the total trade carried was 6·24 per cent. in excess of that of 1892-93, but 7·92 per cent. below that of 1891-92. In the import trade Purnea was by far the most important registering district, the quantity which passed through the stations in that district last year being 41,504 maunds out of a total quantity imported of 45,468 maunds. In the export trade Muzaffarpur, Champaran, and Purnea registered the largest quantities.

15. *Salt*.—The improvement noticed in the report for 1892-93 received a check during the year under report, the total exports being 12,381 maunds, or 7.44 per cent. below those of the previous year. While Champaran showed a decrease of 18,736 maunds, Calcutta of 6,750 maunds, and Bhagalpur of 2,539 maunds, Purnea exhibited an increase of 10,576 maunds, and Muzaffarpur of 3,539 maunds. The following are the registering stations through which the largest supplies were exported to Nepal during the past three years:—

16. *Oilseeds*.—Under this head the only staples in which the trade is important are linseed and mustard seed. The traffic, which is practically confined to imports, showed an increase of 15,899 maunds, or 10.16 per cent., under linseed, and a decrease of 5,282 maunds, or 2.72 per cent., under mustard seed as compared with the trade of the previous year. By far the largest quantities of linseed were imported into Muzaffarpur and Champaran, the figures for these districts 81,531 maunds and 44,064 maunds respectively, out of a total import of 1,72,413 maunds. In the case of mustard seed Purnea, with 1,05,883 maunds out of an aggregate supply of 1,88,663 maunds, heads the list of importing districts, and Bhagalpur and Muzaffarpur come next with 25,357 maunds and 23,361 maunds respectively. The following are the stations through which the largest supplies were received during the past three years:—

18. *Tobacco*.—This trade, which was in a very depressed state in 1892-93, recovered during the past year, the increase being most apparent under imports, which amounted to 79,254 maunds in 1891-92, 14,662 maunds in 1892-93, and 71,324 maunds during the year under report; the exports which fell from 42,125 maunds in 1891-92 to 27,497 maunds in 1892-93 stood at 29,295 maunds last year. In the import trade Purnea was the principal registering district, and in the export trade Muzaffarpur and Champaran give the largest results.

19. *Timber*.—The trade in timber has been steadily declining since 1888-89; the past year's figures were 20.81 per cent. below those of 1892-93, and 41.82 per cent. less than those of 1891-92. The Champaran district registered 60,360 maunds, or over 96 per cent., of the total import trade as shown in the following statement:—

22. As in previous years, no duties were levied on the frontier of the Purnea district by the Nepalese authorities on traders after they left or before they entered British territory. On the borders of the Darbhanga district an impost is levied only on *saboy*, a kind of grass for which there is a great demand in British territory for the manufacture of paper and the preparation of string. The levy of duties on the frontier of the Muzaffarpur district has ceased, but certain tolls are still levied by the ferry *ticcadars* on goods imported into British territory. On the borders of the Supaul subdivision of the Bhagalpur district the Nepal Government have, it is said, commenced to levy imposts. In the Champaran district there was no change in the imposts levied. As regards the Darjeeling district, the only change made in the past year was the discontinuance of the levy of duty on metals exported to Nepal. The details of these imposts are, as usual, embodied in the statements published in the appendix.

SECTION III.—TRADE WITH TIBET AND SIKKIM.

TRADE WITH
TIBET AND
SIKKIM.

23. Up to the 3rd November 1893 the trade of Bengal with Tibet and Sikkim was registered at only three stations, viz., at Pedang, Ranjit, and Laba in the Darjeeling district. On the 4th November 1893 a new station was tentatively opened at Singla in the same district for the registration of the Sikkim trade passing over the newly constructed bridge across the Rummon river. The traffic which passes the Ranjit, Laba, and Singla stations is chiefly with Sikkim, while that which passes the Pedang station is almost entirely

with Tibet. The trade with Tibet is compared below with that of the two previous years:—

Total	...	8,21,277	5,80,636	6,90,412

24. Though the total trade with Tibet showed a recovery of 18·90 per cent. as compared with 1892-93, the figures were still 15·92 per cent. below those of 1891-92. The slight improvement noticeable in the import trade was entirely due to the expansion of the trade in raw wool, which alone formed 84·31 per cent. of the total imports; the traffic in the other chief commodities show a rapid decline. The rise in the export trade was chiefly due to larger transactions in indigo, European cotton piece-goods, brass and copper, and other manufactured articles of merchandise. The subjoined abstracts show the chief articles of merchandise imported from, and exported to, Tibet during the past three years:—

26. The trade with Sikkim showed a further increase of 15·47 per cent. and 41·20 per cent. in comparison with the two previous years. In the import trade the largest increase was under other rain crops, timber, gram and pulse, and hides of cattle, while in the export trade rice, salt, and mineral oil and cattle were the principal items which showed an advance. SECTION IV.—TRADE WITH BHUTAN.

TRADE WITH
BHUTAN.

27. As heretofore, the traffic between Bengal and Bhutan was registered during the past year at Baksa, Hantupara, and Ambari in the Jalpaiguri district, and at Pedang and Laba in the Darjeeling district. From the 1st April to the 31st October 1893, *i.e.*, for seven months, the Hantupara and Ambari stations remained closed on account of the rains. Baksa is the most important station for the registration both of the import and export trade. The following statement shows the total value of the trade registered during the past three years :—

	Imports from Bhutan.	Exports to Bhutan.	Total.
	Rs.	Rs.	Rs.
1891-92 ...	1,84,892	1,34,848	3,19,740

1893-94 ...	1,85,735	1,43,241	3,28,976

28. These figures show that the trade with Bhutan is still declining. The decrease in 1892-93 occurred under imports as well as exports, but during the past year a decline is apparent under imports only, the exports showing an improvement of 13.26 per cent. over the figures of 1892-93, owing chiefly to larger despatches of European cotton and woollen piece-goods, rice, and tobacco: the decrease in the import trade amounted to 18.33 per cent. as compared with 1892-93, and was due to a falling off in the supplies of raw wool, fresh fruits

and vegetables, and yak-tails received from Bhutan. The principal articles of the import trade during the past three years are given below :—

showed a decline of 11 maunds and 19 seers during the past year :—

The quantity imported into the Darjeeling district was 16 maunds 8 seers less than in 1892-93, but 2 maunds 27 seers in excess of the figures of 1891-92. Of the quantity brought into the Darjeeling district last year, 115 maunds came through the Sukiapukri station from Walang Cheng salt gola in Nepal, and the rest through Pedang station from Chombi in Tibet and from Lingiam in Sikkim. The quantity brought into the Jalpaiguri district showed an increase of 4 maunds 29 seers as compared with 1892-93, and of 8 maunds 34 seers as compared with 1891-92.
